STATEMENT OF ADDITIONAL INFORMATION

April 30, 2021

This Statement of Additional Information ("SAI") provides general information about the Spyglass Growth Fund (the "Fund"), a series of Manager Directed Portfolios (the "Trust"). This SAI is not a prospectus and should be read in conjunction with the Fund's current prospectus dated April 30, 2021 (the "Prospectus"), as supplemented and amended from time to time.

The financial statements of the Fund for the fiscal year ended December 31, 2020 included in the Fund's [Annual Report](#) to shareholders and the report dated February 25, 2021 of BBD, LLP, the independent registered public accounting firm for the Fund, related thereto are incorporated into this SAI by reference. No other parts of the Annual Report are incorporated herein by reference.

To obtain a copy of the current Prospectus and/or the annual and semi-annual shareholder reports, free of charge, please write or call the Fund at the address or toll-free telephone number below, or visit the Fund's website at www.spyglassfunds.com.

GENERAL INFORMATION

The Fund is a mutual fund that is a non-diversified, separate series of Manager Directed Portfolios (the "Trust"). The Trust is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund is the successor to the Spyglass Partners Fund LP, a limited partnership (the "Predecessor Partnership") managed by Spyglass Capital Management LLC, the Fund's investment adviser (the "Advisor"), pursuant to a conversion effective as of December 29, 2017. The Trust was organized as a Delaware statutory trust on April 4, 2006. Effective July 1, 2016, the Trust changed its name from The Roxbury Fund to Manager Directed Portfolios. The Declaration of Trust permits the Board of Trustees of the Trust (the "Board") to establish series of shares, each of which constitutes a series separate and distinct from the shares of the other series. The Fund currently offers Institutional Shares. This SAI also contains information about Retail Shares of the Fund, which are not currently offered.

INVESTMENT POLICIES, STRATEGIES AND ASSOCIATED RISKS

The following information supplements the information concerning the Fund's investment objective, policies and limitations found in the Prospectus.

Investment Objective. The Fund seeks long term capital appreciation. The Fund's investment objective may be changed without the approval of the Fund's shareholders upon 60 days' prior written notice to shareholders.

Non-Diversification Status. The Fund is non-diversified. With respect to 50% of the Fund's total assets, the Fund will not purchase the securities of any one issuer if, immediately after and as a result of such purchase (a) the value of the Fund's holdings in the securities of such issuer exceeds 5% of the Fund's total assets, or (b) the Fund owns more than 10% of the outstanding voting securities of the issuer.

General Market Risks. U.S. and international markets have experienced significant volatility in recent years. The securities markets have experienced reduced liquidity, price volatility, credit downgrades, increased likelihood of default and valuation difficulties, all of which may increase the risk of investing in securities held by the Fund.

Investment Strategies and Related Risks

Equity Securities. Equity securities represent ownership interests, or the rights to acquire ownership interests, in an issuer and include common stocks, preferred stocks, convertible securities, rights and warrants, with different types of equity securities providing different voting and dividend rights and priority if the issuer becomes bankrupt. The value of equity securities varies in response to many factors, including the activities and financial condition of individual companies, the business market in which individual companies compete and general market and economic conditions. Equity securities fluctuate in value, often based on factors unrelated to the value of the issuer of the securities, and such fluctuations can be significant.

Common Stocks. Common stock represents a proportionate share of the ownership of a company and its value is based on the success of the company's business, any income paid to stockholders, the value of its assets, and general market conditions. In addition to the general risks set forth above, investments in common stocks are subject to the risk that in the event a company in which the Fund invests is liquidated, the holders of preferred stock and creditors of that company will be paid in full before any payments are made to the Fund as a holder of common stock. It is possible that all assets of that company will be exhausted before any payments are made to the Fund.

Large-Cap Companies. To the extent the Fund invests in the equity securities of large-sized companies, it will be exposed to the risks of larger-sized companies. Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-cap companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.

Small- and Medium-Sized Companies. To the extent the Fund invests in the equity securities of small- and medium-sized companies, it will be exposed to the risks of smaller-sized companies. Small- and medium-sized companies may have narrower markets for their goods and/or services and may have more limited managerial and financial resources than larger, more established companies. Furthermore, such companies may have limited product lines, services, markets, or financial resources or may be dependent on a small management group. In addition, because these stocks may not be well-known to the investing public, do not have significant institutional ownership or are typically followed by fewer security analysts, there will normally be less publicly available information concerning these securities compared to what is available for the securities of larger companies. Adverse publicity and investor perceptions, whether or not based on fundamental analysis, can decrease the value and liquidity of securities held by the Fund. As a result, small- and medium-sized company performance can be more volatile and they may face greater risk of business failure, which could increase the volatility of the Fund's portfolio.

Real Estate Investment Trusts ("REITs"). Equity REITs invest primarily in real property and earn rental income from leasing those properties. They also may realize gains or losses from the sale of properties. Equity REITs generally exercise some degree of control over the operational aspects of their real estate investments, lease terms and property maintenance and repair. Mortgage REITs invest primarily in mortgages and similar real estate interests and receive interest payments from the owners of the mortgaged properties and are paid interest by the owners of the financed properties. Hybrid REITs invest both in real property and in mortgages.

A REIT generally is not taxed on income distributed to its shareholders if it complies with certain federal income tax requirements relating primarily to its organization, ownership, assets and income and, further, if it distributes at least 90 percent of its taxable income to shareholders each year. Consequently, REITs tend to focus on income-producing real estate investments.

The Fund's investments in REITs may be adversely affected by deteriorations of the real estate rental market, in the case of REITs that primarily own real estate, or by deteriorations in the creditworthiness of property owners and changes in interest rates in the case of REITs that primarily hold mortgages. Equity and mortgage REITs also are dependent upon specialized

management skills, may not be diversified in their holdings and are subject to the risks of financing projects. REITs also may be subject to heavy cash flow dependency, defaults by borrowers and self-liquidation. Under certain circumstances, a REIT may fail to qualify for pass-through tax treatment, which would subject the REIT to federal income taxes and adversely affect the Fund's return on its investment in the REIT. In general, qualified REIT dividends that an investor receives directly from a REIT are automatically eligible for the 20% qualified business income deduction. The IRS has issued final Treasury Regulations that permit a dividend or part of a dividend paid by a regulated investment company and reported as a "section 199A dividend" to be treated by the recipient as a qualified REIT dividend for purposes of the 20% qualified business income deduction, if certain holding period and other requirements have been satisfied by the recipient with respect to its Fund shares.

Foreign Investments and Currencies. The Fund may make investments in securities of non-U.S. issuers ("foreign securities"), including U.S. dollar-denominated securities, foreign securities and securities of companies incorporated outside the U.S.

Risks of Investing in Foreign Securities. Investments in foreign securities involve certain inherent risks, including the following:

Political and Economic Factors. Individual foreign economies of certain countries may differ favorably or unfavorably from the U.S. economy in such respects as growth of gross national product, rate of inflation, capital reinvestment, resource self-sufficiency, diversification and balance of payments position. Governments in certain foreign countries also continue to participate to a significant degree, through ownership interest or regulation, in their respective economies. Action by these governments could include restrictions on foreign investment, nationalization, expropriation of goods or imposition of taxes, and could have a significant effect on market prices of securities and payment of interest. The economies of many foreign countries are heavily dependent upon international trade and are accordingly affected by the trade policies and economic conditions of their trading partners. Enactment by these trading partners of protectionist trade legislation could have a significant adverse effect upon the securities markets of such countries.

The United Kingdom (UK) withdrew from the European Union (EU) on January 31, 2020 following a June 2016 referendum referred to as "Brexit." Although the UK and EU agreed to a trade deal in December 2020, certain post-EU arrangements, such as those relating to the offering of cross-border financial services and sharing of cross-border data, have yet to be reached and the EU's willingness to grant equivalency to the UK remains uncertain. There is significant market uncertainty regarding Brexit's ramifications, and the range of possible political, regulatory, economic and market outcomes are difficult to predict. The uncertainty surrounding the UK's economy, and its legal, political, and economic relationship with the remaining member states of the EU, may cause considerable disruption in securities markets, including decreased liquidity and increased volatility, as well as currency fluctuations in the British pound's exchange rate against the U.S. dollar.

Currency Fluctuations. The Fund may invest in securities denominated in foreign currencies. Accordingly, a change in the value of any such currency against the U.S. dollar will result in a corresponding change in the U.S. dollar value of the Fund's assets denominated in that currency. Such changes will also affect the Fund's income. The value of the Fund's assets may

also be affected significantly by currency restrictions and exchange control regulations enacted from time to time.

Market Characteristics. Foreign securities in which the Fund invests will be purchased in over-the-counter markets or on exchanges located in the countries in which the principal offices of the issuers of the various securities are located, if that is the best available market. Foreign exchanges and markets may be more volatile than those in the United States. While growing in volume, they usually have substantially less volume than United States markets, and the Fund's foreign securities may be less liquid and more volatile than United States securities. Moreover, settlement practices for transactions in foreign markets may differ from those in United States markets, and may include delays beyond periods customary in the United States. Foreign security trading practices, including those involving securities settlement where Fund assets may be released prior to receipt of payment or securities, may expose the Fund to increased risk in the event of a failed trade or the insolvency of a foreign broker-dealer.

Legal and Regulatory Matters. Certain foreign countries may have less supervision of securities markets, brokers and issuers of securities, and less financial information available from issuers, than is available in the United States.

Taxes. The interest and dividends payable on certain of the Fund's foreign portfolio securities may be subject to foreign withholding taxes, thus reducing the net amount of income available for distribution to Fund shareholders.

Costs. To the extent that the Fund invests in foreign securities, its expense ratio is likely to be higher than those of investment companies investing only in domestic securities, because the cost of maintaining the custody of foreign securities is higher.

Public Health Threats. Various countries throughout the world are vulnerable economically to the impact of a public health crisis, which could depress consumer demand, reduce economic output, and potentially lead to market closures, travel restrictions, and quarantines, all of which would negatively impact the country's economy and could affect the economies of its trading partners.

Emerging Markets. Some of the securities in which the Fund may invest may be located in developing or emerging markets entail additional risks, including less social, political and economic stability; smaller securities markets and lower trading volume, which may result in less liquidity and greater price volatility; national policies that may restrict the Fund's investment opportunities, including restrictions on investments in issuers or industries, or expropriation or confiscation of assets or property; and less developed legal structures governing private or foreign investment.

In considering whether to invest in the securities of a foreign company, the Advisor may consider such factors as the characteristics of the particular company, differences between economic trends and the performance of securities markets within the U.S. and those within other countries, and also factors relating to the general economic, governmental and social conditions of the country or countries where the company is located. The extent to which the Fund will be invested in foreign companies and countries and depositary receipts will fluctuate from time to time, depending on the Advisor's assessment of prevailing market, economic and other conditions.

Initial Public Offerings. The Fund may purchase shares in initial public offerings (“IPOs”). Because IPO shares frequently are volatile in price, the Fund may hold IPO shares for a very short period of time. This may increase the turnover of the Fund’s portfolio and may lead to increased expenses to the Fund, such as brokerage commissions and transaction costs. By selling shares, the Fund may realize taxable short-term capital gains that, to the extent not offset by losses, will be distributed to the shareholders and taxable to them at ordinary income rates. Investing in IPOs increases risk because IPO shares are frequently volatile in price. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of the Fund’s portfolio.

Securities Lending. The Fund may lend securities from its portfolios to brokers, dealers and financial institutions (but not individuals) in order to increase the return on its portfolio. The value of the loaned securities may not exceed one-third of the Fund’s total net assets and loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. The Fund will not enter into any portfolio security lending arrangement having a duration of longer than one year. The principal risk of portfolio lending is potential default or insolvency of the borrower. In either of these cases, the Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. The Fund may pay reasonable administrative and custodial fees in connection with loans of portfolio securities and may pay a portion of the interest or fee earned thereon to the borrower or a placing broker.

In determining whether or not to lend a security to a particular broker, dealer or financial institution, the Advisor considers all relevant facts and circumstances, including the size, creditworthiness and reputation of the broker, dealer or financial institution. Any loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. Any securities that the Fund may receive as collateral will not become part of the Fund’s investment portfolio at the time of the loan and, in the event of a default by the borrower, the Fund will, if permitted by law, dispose of such collateral except for such part thereof that is a security in which the Fund is permitted to invest. During the time securities are on loan, the borrower will pay the Fund any accrued income on those securities. Such payments of accrued income will not constitute qualified dividend income and will be taxable as ordinary income. For loaned securities, the Fund may invest the cash collateral and earn income or receive an agreed-upon fee from a borrower that has delivered cash-equivalent collateral. The Fund will be responsible for the risks associated with the investment of the cash collateral, including the risk that the Fund may lose money on the investment or may fail to earn sufficient income to meet its obligations to the borrower. While the Fund does not have the right to vote securities on loan, it would terminate the loan and regain the right to vote if that were considered important with respect to the investment.

Borrowing. The Fund may borrow money for temporary or emergency purposes, in an aggregate amount not in excess of 10% of the Fund's total assets. Such borrowings may be on a secured or unsecured basis at fixed or variable rates of interest. The 1940 Act requires the Fund to maintain continuous asset coverage of not less than 300% with respect to all borrowings. This allows the Fund to borrow for such purposes an amount (when taken together with any borrowings for temporary or emergency purposes as described below) equal to as much as 50% of the value of its net assets (not including such borrowings). If such asset coverage should decline to less than 300% due to market fluctuations or other reasons, the Fund is required to reduce the Fund's debt and restore the 300% asset coverage within three business days, and may be required to dispose of some of its portfolio holdings, even though it may be disadvantageous from an investment standpoint to dispose of assets at that time.

The Fund may also be deemed to be borrowing when entering into certain derivative transactions such as certain options, forwards or swap transactions or reverse repurchase agreements. This type of borrowing is generally referred to as economic leverage.

The use of borrowing by the Fund involves special risk considerations that may not be associated with other funds having similar policies. Since substantially all of the Fund's assets fluctuate in value, whereas the interest obligation resulting from a borrowing will be fixed by the terms of the Fund's agreement with its lender, the asset value per share of the Fund will tend to increase more when its portfolio securities increase in value and decrease more when its portfolio securities decrease in value than would otherwise be the case if the Fund did not borrow funds. In addition, interest costs on borrowings may fluctuate with changing market rates of interest and may partially offset or exceed the return earned on borrowed funds. Under adverse market conditions, the Fund might have to sell portfolio securities to meet interest or principal payments at a time when fundamental investment considerations would not favor such sales. The interest which the Fund must pay on borrowed money, together with any additional fees to maintain a line of credit or any minimum average balances required to be maintained, are additional costs which will reduce or eliminate any net investment income and may also offset any potential capital gains. Unless the appreciation and income, if any, on assets acquired with borrowed funds exceed the costs of borrowing, the use of leverage will diminish the investment performance of the Fund compared with what it would have been without leverage.

Illiquid Securities. The Fund may not knowingly invest more than 15% of its net assets in illiquid securities. An illiquid security is a security which the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the security. The Advisor makes the day to day determinations of liquidity pursuant to the Fund's liquidity risk management program, monitors the liquidity of securities held by the Fund and reports periodically on the Fund's liquidity to the Board. If the limitations on illiquid securities are exceeded, other than by a change in market values, the condition will be reported by the Advisor to the Board. Illiquid securities include securities issued by private companies and restricted securities (securities where the disposition of which is restricted under the federal securities laws). Rule 144A securities may be treated as liquid securities if they meet the criteria in the Fund's liquidity risk management program. External market conditions may impact the liquidity of portfolio securities and may cause the Fund to sell or divest certain illiquid securities in order to comply with its limitation on holding illiquid securities, which may result in realized losses to the Fund.

Restricted securities may be sold only in privately negotiated transactions or in a public offering with respect to which a registration statement is in effect under the Securities Act. Where registration is required, the Fund may be obligated to pay all or part of the registration expenses and a considerable period may elapse between the time of the decision to sell a security and the time the Fund may be permitted to sell a security under an effective registration statement. If, during such a period, adverse market conditions were to develop, the Fund might obtain a less favorable price than that which prevailed when it decided to sell. Restricted securities will be priced at fair value as determined in good faith by the Board. If, through the appreciation of restricted securities or the depreciation of unrestricted securities, the Fund should be in a position where more than 15% of the value of its net assets are invested in illiquid securities, including restricted securities which are not readily marketable, the Fund will take such steps as is deemed advisable, if any, to protect liquidity.

Temporary, Cash and Similar Investments. The Fund may, without limit, invest in commercial paper and other money market instruments rated in one of the two highest rating categories by a nationally recognized statistical ratings organization (“NRSRO”), in response to adverse market conditions, as a temporary defensive position. The result of this action may be that the Fund will be unable to achieve its investment objective. In addition, the Fund may invest in any of the following securities and instruments as a non-principal investment strategy:

Bank Certificates of Deposit, Bankers’ Acceptances and Time Deposits. The Fund may acquire certificates of deposit, bankers’ acceptances and time deposits. Certificates of deposit are negotiable certificates issued against funds deposited in a commercial bank for a definite period of time and earning a specified return. Bankers’ acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are “accepted” by a bank, meaning in effect that the bank unconditionally agrees to pay the face value of the instrument on maturity. Certificates of deposit and bankers’ acceptances acquired by the Fund will be dollar denominated obligations of domestic or foreign banks or financial institutions which at the time of purchase have capital, surplus and undivided profits in excess of \$100 million (including assets of both domestic and foreign branches), based on latest published reports, or less than \$100 million if the principal amount of such bank obligations are fully insured by the U.S. Government. If the Fund holds instruments of foreign banks or financial institutions, it may be subject to additional investment risks that are different in some respects from those incurred by the fund that invests only in debt obligations of U.S. domestic issuers. See “Foreign Investments and Currencies” above. Such risks include future political and economic developments, the possible imposition of withholding taxes by the particular country in which the issuer is located on interest income payable on the securities, the possible seizure or nationalization of foreign deposits, the possible establishment of exchange controls or the adoption of other foreign governmental restrictions which might adversely affect the payment of principal and interest on these securities.

Domestic banks and foreign banks are subject to different governmental regulations with respect to the amount and types of loans which may be made and interest rates which may be charged. In addition, the profitability of the banking industry depends largely upon the availability and cost of funds for the purpose of financing lending operations under prevailing money market conditions. General economic conditions as well as exposure to credit losses arising from possible financial difficulties of borrowers play an important part in the operations of the banking industry.

As a result of federal and state laws and regulations, domestic banks are, among other things, required to maintain specified levels of reserves, limited in the amount which they can loan to a single borrower, and subject to other regulations designed to promote financial soundness. However, such laws and regulations do not necessarily apply to foreign bank obligations that the Fund may acquire.

In addition to purchasing certificates of deposit and bankers' acceptances, to the extent permitted under its investment objectives and policies stated above and in the Prospectus, the Fund may make interest bearing time or other interest bearing deposits in commercial or savings banks. Time deposits are non-negotiable deposits maintained at a banking institution for a specified period of time at a specified interest rate.

Savings Association Obligations. The Fund may invest in certificates of deposit (interest bearing time deposits) issued by savings banks or savings and loan associations that have capital, surplus and undivided profits in excess of \$100 million, based on latest published reports, or less than \$100 million if the principal amount of such obligations is fully insured by the U.S. Government.

Commercial Paper, Short Term Notes and Other Corporate Obligations. The Fund may invest a portion of its assets in commercial paper and short term notes. Commercial paper consists of unsecured promissory notes issued by corporations. Issues of commercial paper and short term notes will normally have maturities of less than nine months and fixed rates of return, although such instruments may have maturities of up to one year.

Commercial paper and short term notes will consist of issues rated at the time of purchase "A-2" or higher by S&P, "Prime-1" by Moody's, or similarly rated by another NRSRO or, if unrated, will be determined by the Advisor to be of comparable quality.

Portfolio Turnover. The portfolio turnover rate is calculated by dividing the lesser of purchases or sales of portfolio securities by the average monthly value of the Fund's portfolio securities. For purposes of this calculation, portfolio securities exclude all securities having a maturity when purchased of one year or less. High portfolio turnover may result in increased brokerage costs to the Fund and also adverse tax consequences to the Fund's shareholders.

For the fiscal year ended December 31, 2020, the Fund's portfolio turnover rate was 38%. For the fiscal year ended December 31, 2019, the Fund's portfolio turnover rate was 39%.

DISCLOSURE OF FUND HOLDINGS

The Fund has policies and procedures in place regarding the disclosure of Fund portfolio holdings designed to allow disclosure of portfolio holdings information where it is deemed appropriate for the Fund's operations or it is determined to be useful to the Fund's shareholders without compromising the integrity or performance of the Fund. Except when there are legitimate business purposes for selective disclosure of the Fund's holdings, the Fund will not provide or permit others to provide information about the Fund's holdings on a selective basis.

The Fund provides portfolio holdings information as required in regulatory filings and shareholder reports, discloses portfolio holdings information as required by federal or state securities laws, and may disclose portfolio holdings information in response to requests by governmental authorities. Regulatory filings with portfolio holdings information are made approximately 60 days after the end of each fiscal quarter.

The Fund may, but is not required to, disclose some of the Fund's portfolio holdings information on the Fund's website, the Advisor's website, at a shareholder meeting, in Advisor newsletters, or in other communications made available to all shareholders. Such portfolio holdings disclosures may include the Fund's complete portfolio holdings, the number of securities the Fund holds, a summary schedule of investments, the Fund's top ten holdings, or a percentage breakdown of the Fund's investments by country, sector and industry, or particular holdings. The Advisor may not selectively disclose such information unless all of the information is disclosed by one of the above methods to all shareholders.

The Fund may disclose information relating to the Fund's portfolio holdings to:

- certain "independent reporting agencies" recognized by the SEC to be acceptable agencies for the reporting of industry statistical information;
- financial consultants to assist them in determining the suitability of the Fund as an investment for their clients, subject to a confidentiality agreement and trading restrictions; and
- service providers subject to a duty of confidentiality who require access to the information: (i) in order to fulfill their contractual duties relating to the Fund; (ii) to facilitate the transition of a newly hired investment adviser prior to the commencement of its duties; (iii) to facilitate the review of the Fund by a ranking or ratings agency; or (iv) for the purpose of due diligence regarding a merger or acquisition.

The Fund may also disclose such information in accordance with ongoing arrangements with certain third parties, as discussed below. In addition, such disclosures may be made by the Advisor's trading desk to broker-dealers in connection with the purchase or sale of securities on behalf of the Fund. Finally, the Fund may disclose such information in such other limited circumstances as the Board or a committee thereof deems appropriate, subject to a confidentiality agreement and trading restrictions.

In order to mitigate conflicts between the interests of Fund shareholders, on the one hand, and those of the Advisor or principal underwriter, or any affiliated person of the Fund, the Advisor, or principal underwriter, on the other, the Trust's Chief Compliance Officer must approve a non-public disclosure of Fund holdings, other than the ongoing arrangements described below, which have been approved by the Board. The Trust's Chief Compliance Officer must report all such arrangements to disclose Fund holdings information to the Board on a quarterly basis,

which will review such arrangements and terminate them if it determines such disclosure arrangements are not in the best interests of shareholders. Before any non-public disclosure of information about the Fund's holdings, the Chief Compliance Officer will require the recipient of such non-public Fund holdings information to agree, or provide proof of an existing duty, to keep the information confidential and to agree not to trade directly or indirectly based on the information or to use the information to form a specific recommendation about whether to invest in the Fund or any other security. Under no circumstances may the Trust, the Advisor, or their affiliates receive any consideration or compensation for disclosing Fund holdings information.

Each of the following third parties have been approved to receive Fund holdings information: (i) U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services"), the Fund's administrator, transfer agent and fund accounting agent; (ii) the Fund's independent public accounting firm; (iii) financial printers, solely for the purpose of preparing Fund reports or regulatory filings; (iv) U.S. Bank N.A., the Fund's custodian in connection with its custody of the Fund's assets; (v) Godfrey & Kahn, S.C., Trust counsel; (vi) proxy voting services retained by the Fund or the Advisor; and (vii) the following data aggregators and ranking and ratings services: Lipper Analytical Services, Inc., Morningstar Inc., and Standard & Poor's, all of which currently receive such information 45 calendar days following the end of a calendar quarter; (viii) data vendors utilized in connection with the liquidity classifications of the Fund's investments pursuant to Rule 22e-4 of the 1940 Act; and (ix) disclosures made to the middle- or back-office services providers to the Advisor who need to know such information to provide such services to the Advisor. Information may be provided to these parties at any time under conditions of confidentiality, including a duty not to trade on the Fund's non-public holdings. "Conditions of Confidentiality" include confidentiality items included in written agreements, implied by the nature of the relationship or required by fiduciary or regulatory principles. The Advisor and other service providers have established procedures to ensure that the Fund's portfolio holdings information is only disclosed in accordance with these policies. Except for the foregoing, the Trust has no ongoing arrangements to disclose portfolio holdings information with respect to the Fund.

INVESTMENT LIMITATIONS

The Fund has adopted the investment limitations set forth below. Limitations which are designated as fundamental policies may not be changed without the affirmative vote of the lesser of: (i) 67% or more of the shares of the Fund present at a shareholders meeting if holders of more than 50% of the outstanding shares of the Fund are present in person or by proxy; or (ii) more than 50% of the outstanding shares of the Fund. Except with respect to the asset coverage requirement under Section 18(f)(1) of the 1940 Act with respect to borrowing, if any percentage restriction on investment or utilization of assets is adhered to at the time an investment is made, a later change in percentage resulting from a change in the market values of the Fund or its assets or redemptions of shares will not be considered a violation of the limitation. The asset coverage requirement under Section 18(f)(1) of the 1940 Act with respect to borrowings is an ongoing requirement.

As a matter of fundamental policy, the Fund will not:

1. with respect to 50% of its total assets, purchase the securities of any one issuer if, immediately after and as a result of such purchase, (a) the value of the Fund's holdings in the securities of such issuer exceeds 5% of the value of the Fund's total assets, or (b)

- the Fund owns more than 10% of the outstanding voting securities of the issuer (this restriction does not apply to investments in the securities of the U.S. Government, or its agencies or instrumentalities, or other investment companies);
2. invest 25% or more of its net assets, calculated at the time of purchase and taken at market value, in securities of issuers in any one industry (other than securities issued by the U.S. Government or its agencies, or securities of other investment companies);
 3. borrow money, provided that the Fund may borrow money for temporary or emergency purposes (not for leveraging or investments), and then in an aggregate amount not in excess of 10% of the Fund's total assets;
 4. make loans to other persons, except by: (1) purchasing debt securities in accordance with its investment objective, policies and limitations; (2) entering into repurchase agreements; or (3) engaging in securities loan transactions;
 5. underwrite any issue of securities, except to the extent that the Fund may be considered to be acting as underwriter in connection with the disposition of any portfolio security;
 6. purchase or sell real estate, provided that the Fund may invest in obligations secured by real estate or interests therein or obligations issued by companies that invest in real estate or interests therein, including real estate investment trusts;
 7. purchase or sell physical commodities, provided that the Fund may invest in, purchase, sell or enter into financial options and futures, forward and spot currency contracts, swap transactions and other derivative financial instruments; or
 8. issue senior securities, except to the extent permitted by the 1940 Act.

With regard to the statement that the restriction set forth in item (2) above does not apply to securities issued by other investment companies, the SEC staff has maintained that a fund should consider the underlying investments of investment companies in which the fund is invested when determining concentration of the fund, and takes this into account in determining its compliance with the restriction provided in item (2). The Fund will look through to the underlying holdings of investment companies in which the Fund is invested when determining the concentration of the Fund.

With regard to the restriction set forth in item (8) above, the 1940 Act permits a fund to enter into options, futures contracts, forward contracts, repurchase agreements and reverse repurchase agreements provided that these types of transactions are covered in accordance with SEC positions. Under SEC staff interpretations of the 1940 Act, such derivative transactions will not be deemed "senior securities" if a fund segregates or earmarks assets on the fund's records or otherwise covers its obligations to limit the fund's risk of loss, such as through offsetting positions.

The regulation of the U.S. and non-U.S. derivatives markets has undergone substantial change in recent years and such change may continue. In particular, new Rule 18f-4 (the "Derivatives Rule"), adopted by the SEC on October 28, 2020, replaces the asset segregation regime of Investment Company Act Release No. 10666 (Release 10666) with a new framework for the use

of derivatives by registered funds. The Derivatives Rule provides an exception for a fund that limits its derivatives exposure to 10% of its net assets, excluding certain currency and interest rate hedging transactions. On August 19, 2022, the SEC will rescind Release 10666 and withdraw staff letters and similar guidance addressing a fund's use of derivatives and require funds to satisfy the requirements of the Derivatives Rule. Unless the Fund elects to comply early with the Derivatives Rule, the Fund may continue to engage in certain asset segregation practices in accordance with Release 10666 and related staff letters and guidance until August 19, 2022.

MANAGEMENT OF THE FUND

Trustees and Officers

The business and affairs of the Trust are managed under the oversight of the Board, subject to the laws of the State of Delaware and the Trust's Agreement and Declaration of Trust. The Board is currently comprised of four trustees who are not interested persons of the Trust within the meaning of the 1940 Act (the "Independent Trustees"). The Trustees are responsible for deciding matters of overall policy and overseeing the actions of the Trust's service providers. The officers of the Trust conduct and supervise the Trust's daily business operations.

Name, Year of Birth and Address ⁽¹⁾	Position(s) Held with the Trust and Length of Time Served ⁽²⁾	Principal Occupation(s) During the Past Five Years	Number of Funds in Fund Complex Overseen by Trustee ⁽³⁾	Other Directorships Held by Trustee During the Past Five Years
INDEPENDENT TRUSTEES				
Gaylord B. Lyman (Born 1962)	Trustee and Audit Committee Chairman, since April 2015	Senior Portfolio Manager, Affinity Investment Advisors, LLC, since 2017; Managing Director of Kohala Capital Partners, LLC, (2011 – 2016).	9	None

- (3) Each officer is elected annually and serves until his or her successor has been duly elected and qualified.

Leadership Structure and Responsibilities of the Board and the Committee

The Board has selected Scott Craven Jones to serve as Lead Independent Trustee. The position of Chairman of the Board is vacant and, as Lead Independent Trustee, Mr. Jones acts as Chairman. Mr. Jones' duties include presiding at meetings of the Board and serving as Chairman during executive sessions of the Independent Trustees; interfacing with management to address significant issues that may arise between regularly scheduled Board and Committee meetings; acting as a liaison with the Trust's service providers, officers, legal counsel, and other Trustees between meetings; helping to set Board meeting agendas; and performing other functions as requested by the Board from time to time.

The Board meets as often as necessary to discharge its responsibilities. Currently, the Board conducts regular quarterly meetings and may hold special in-person or telephonic meetings as necessary to address specific issues that require attention prior to the next regularly scheduled meeting. The Board also relies on professionals, such as the Trust's independent registered

public accounting firm and legal counsel, to assist the Trustees in performing their oversight responsibilities.

The Board has established one standing committee – the Audit Committee. The Board may establish other committees or nominate one or more Trustees to examine particular issues related to the Board’s oversight responsibilities, from time to time. The Audit Committee meets regularly to perform its delegated oversight functions and reports its findings and recommendations to the Board. For more information on the Committee, see the section “Audit Committee,” below.

The Board has determined that the Trust’s leadership structure is appropriate because it allows the Board to effectively perform its oversight responsibilities.

Audit Committee

The Audit Committee is comprised of all of the Independent Trustees. Mr. Lyman serves as the chairman of the Committee. Pursuant to its charter, the Audit Committee has the responsibility, among others, to (1) select the Trust’s independent auditors; (2) review and pre-approve the audit and non-audit services provided by the independent auditors; (3) review the scope of the audit and the results of the audit of the Fund’s financial statements; and (4) review with such independent auditors the adequacy of the Trust’s internal accounting and financial controls. Mr. Lyman and Mr. Jones serve as the Audit Committee’s “audit committee financial experts.” The Audit Committee met two times with respect to the Fund during the Fund’s fiscal year ended December 31, 2020.

Trustee Experience, Qualifications, Attributes and/or Skills

The following is a brief discussion of the experience, qualifications, attributes and/or skills that led to the Board’s conclusion that each individual identified below is qualified to serve as a Trustee of the Trust. In determining that a particular Trustee was qualified to serve as a Trustee, the Board has considered a variety of criteria, none of which was controlling. The Board believes that the Trustees’ ability to review critically, evaluate, question and discuss information provided to them, to interact effectively with the advisers, other service providers, counsel and independent auditors, and to exercise effective business judgment in the performance of their duties, support the conclusion that each Trustee is qualified to serve as a Trustee of the Trust. Many Trustee attributes involve intangible elements, such as intelligence, work ethic, the ability to work together, the ability to communicate effectively and the ability to exercise judgment, ask incisive questions, manage people and develop solutions to problems.

Mr. Schoenike has been a trustee of the Trust since July 2016. He was employed by various subsidiaries of U.S. Bancorp from 1990 to 2018 and has decades of experience in the securities industry. In 2000, Mr. Schoenike founded Quasar and established Quasar as a FINRA member broker-dealer dedicated to underwriting and distributing mutual funds, of which he served as President and Chief Executive Officer. Mr. Schoenike previously participated in the FINRA securities arbitration program as an industry arbitrator. Mr. Schoenike previously served as Chairman of the Board from July 2016 to December 2020.

Mr. Lyman has been a trustee of the Trust since April 2015, serves as Chairman of the Audit Committee and has been designated as an audit committee financial expert for the Trust. Mr. Lyman has over 15 years of experience in the investment management industry. He has served as Senior Portfolio Manager of Affinity Investment Advisors, LLC, an investment adviser, since

2017. Prior to that, he served as the Managing Director and portfolio manager of Kohala Capital Partners, an investment adviser, from 2011 to 2016. He also previously served as a vice president and portfolio manager of Becker Capital Management, Inc., an investment adviser. Mr. Lyman has an MBA from the Anderson School of Management at UCLA and holds the Chartered Financial Analyst designation.

Mr. Jones has been a trustee of the Trust since July 2016, has served as Lead Independent Trustee since May 2017, serves on the Audit Committee, and has been designated as an audit committee financial expert for the Trust. He has over 25 years of experience in the asset management industry as an independent director, attorney and executive, holding various roles including Chief Operating Officer, Chief Financial Officer and Chief Administrative Officer, with asset class experience ranging from municipal bonds to hedge funds. Mr. Jones currently is a trustee of two other registered investment companies and is a Managing Director of Carne Global Financial Services (US) LLC where his work includes director and risk oversight positions with investment advisers and serving as an independent director of private funds. Mr. Jones also currently serves as interim Managing Director of Park Agency Inc., a family office. Prior to that, he was an advisor to Wanzenburg Partners and served as Chief Operating Officer and Chief Financial Officer to Aurora Investment Management. He has a Juris Doctorate degree from Northwestern University School of Law and holds the Chartered Financial Analyst designation.

Mr. Greenberg has been a trustee of the Trust since July 2016 and serves on the Audit Committee. Mr. Greenberg has over 20 years of experience in the securities industry. He has been Chief Legal Officer and Senior Vice President of The Motley Fool Holdings, Inc. since 1996. He also served as General Counsel to Motley Fool Asset Management, LLC from 2008 to 2018 and as Manager of Motley Fool Wealth Management, LLC from 2013 to 2018. He has been a Venture Partner of and General Counsel to Motley Fool Ventures LP since 2018. Mr. Greenberg is a Director of The Motley Fool Holdings, Inc.'s wholly-owned subsidiaries in the United Kingdom, Australia, Canada, Singapore, and Germany. Mr. Greenberg also has directorship experience through his service on the board of a private technology company. He has a Master's degree and a Juris Doctorate degree from Stanford University.

Risk Oversight

The Board performs its risk oversight function for the Trust through a combination of (1) direct oversight by the Board as a whole and the Board committee, and (2) indirect oversight through the investment advisers and other service providers, Trust officers and the Trust's Chief Compliance Officer. The Trust is subject to a number of risks, including but not limited to investment risk, compliance risk, operational risk and reputational risk. Day-to-day risk management with respect to the Fund is the responsibility of the investment advisers or other service providers (depending on the nature of the risk) that carry out the Trust's investment management and business affairs. Each of the investment advisers and the other service providers have their own independent interest in risk management and their policies and methods of risk management will depend on their functions and business models and may differ from the Trust's and each other's in the setting of priorities, the resources available or the effectiveness of relevant controls.

The Board provides risk oversight by receiving and reviewing on a regular basis reports from the investment advisers and other service providers, receiving and approving compliance policies and procedures, periodic meetings with the Fund's portfolio manager to review investment policies, strategies and risks, and meeting regularly with the Trust's Chief Compliance Officer to

discuss compliance reports, findings and issues. The Board also relies on the investment advisers and other service providers, with respect to the day-to-day activities of the Trust, to create and maintain procedures and controls to minimize risk and the likelihood of adverse effects on the Trust's business and reputation.

Board oversight of risk management is also provided by the Board's Audit Committee. The Audit Committee meets with the Fund's independent registered public accounting firm to ensure that the Fund's audit scope includes risk-based considerations as to the Fund's financial position and operations.

The Board may, at any time and in its discretion, change the manner in which it conducts risk oversight. The Board's oversight role does not make the Board a guarantor of the Fund's investments or activities.

Security and Other Interests

As of December 31, 2020, no Trustees of the Fund beneficially owned shares of the Fund.

Furthermore, as of December 31, 2020, neither the Independent Trustees, nor members of their immediate families, owned securities beneficially or of record, in the Advisor, the Distributor or any of their affiliates. Accordingly, neither the Independent Trustees, nor members of their immediate family, have a direct or indirect interest, the value of which exceeds \$120,000, in the Advisor, the Distributor or any of their affiliates.

Compensation

For their services as Trustees, the Independent Trustees receive from the Trust an annual retainer in the amount of \$22,000; a per meeting fee of \$1,750 for each meeting attended in person; \$500 for each meeting attended by telephone; and reimbursement for reasonable out-of-pocket expenses incurred in connection with attendance at Board or committee meetings. The Lead Independent Trustee receives an additional \$2,500 annual retainer and the Audit Committee Chair receives an additional \$1,500 annual retainer.

For the Fund's fiscal year ended December 31, 2020, the Independent Trustees received the following compensation.

Independent Trustee	Aggregate Compensation from Fund ⁽¹⁾	Pension or Retirement Benefits Accrued as Part of Trust Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation from the Fund and the Trust ⁽⁴⁾ Paid to Trustees:
Gaylord Lyman ⁽²⁾⁽³⁾	\$3,500	None	None	\$32,500
Lawrence Greenberg ⁽³⁾	\$3,333	None	None	\$31,000
Scott Craven Jones ⁽³⁾⁽⁵⁾	\$3,611	None	None	\$33,500
James R. Schoenike ⁽³⁾⁽⁶⁾	\$0	None	None	\$0

(1) Trustees' fees and expenses are allocated among the Fund and the other series comprising the Trust. The fees listed in this column were paid by the Fund.

(2) Audit Committee Chair.

(3) Audit Committee member.

- (4) As of the date of this SAI, the Trust currently has nine operational portfolios and one portfolio that has been registered but has not yet commenced operations.
- (5) Lead Independent Trustee.
- (6) Mr. Schoenike did not earn any compensation during the fiscal year ended December 31, 2020 due to his previous status as an interested Trustee.

CODES OF ETHICS

The Trust, the Advisor, and the Distributor (as defined below) have each adopted codes of ethics pursuant to Rule 17j-1 of the 1940 Act. These codes of ethics are designed to prevent affiliated persons of the Trust, the Advisor and the Distributor from engaging in deceptive, manipulative or fraudulent activities in connection with securities held or to be acquired by the Fund (which may also be held by persons subject to the codes of ethics). Each code of ethics permits personnel subject to that code of ethics to invest in securities for their personal investment accounts, subject to certain limitations, including limitations related to securities that may be purchased or held by the Fund.

The codes of ethics for the Trust, the Advisor, and the Distributor may be found on the SEC's website at <http://www.sec.gov> in the exhibits to the Fund's registration statement on Form N-1A.

PROXY VOTING

The Board has adopted proxy voting procedures, and thereunder delegated the responsibility for exercising the voting rights associated with the securities purchased and/or held by the Fund to the Advisor, subject to the Board's continuing oversight in accordance with the Proxy Voting Policies and Procedures (the "Voting Policies") and Proxy Voting Guidelines ("Voting Guidelines") adopted by Advisor. Pursuant to the Voting Policies and Voting Guidelines, the Advisor will vote all proxies as it judges in the best interests of the Fund and its shareholders. The Voting Guidelines are attached to this SAI as Appendix A.

The Advisor has established and maintains the Voting Guidelines to carry out the proxy voting for the Fund. The Advisor may retain a third party to assist it in coordinating and voting proxies with respect to the Fund's holdings. If so, the Advisor shall monitor the third party to assure that all proxies are being properly voted and appropriate records are being retained. The Advisor has adopted general positions regarding selected proxy proposals that periodically are considered at annual meetings. The Advisor will generally vote in favor of routine corporate housekeeping proposals, including election of directors (where no corporate governance issues are implicated), selection of auditors, and increases in or reclassification of common stock. The Advisor will generally vote against proposals that make it more difficult to replace members of the issuer's board of directors, including proposals to stagger the board, cause management to be overrepresented on the board, introduce cumulative voting, introduce unequal voting rights, and create supermajority voting. For other proposals not addressed in the Voting Guidelines, the Advisor shall determine whether a proposal is in the best interests of the Fund and its shareholders. Decisions are made exclusively in accordance with the economic interests of the Fund. The Advisor's opinion concerning the management and prospects of the issuer may be taken into account, where appropriate. The Advisor may take into account, among other things, the effect of the proposal on the underlying value of the securities (including the effect on marketability of the securities, potential legal issues arising from the proposal, and the effect of the proposal on future prospects of the issuer), the makeup of the issuer's board of directors,

including the number and quality of both management and non-management directors, the likelihood of a change in such makeup or quality of directors, the necessity of providing the directors with sufficient tools and flexibility to properly discharge their duties as directors, the desirability of providing directors with sufficient time to carefully consider any proposals made to the issuer that might significantly affect the result or nature of activities or ownership of the issuer, and the quality of communications from the corporation to its shareholders. In considering antitakeover provisions, consideration may be given to whether or not the proposal is part of a package of anti-takeover proposals or whether other anti-takeover measures are already in place. Insufficient information or vague or ambiguous wording may indicate that a vote against a proposal is appropriate even though the Advisor agrees with the principle of the proposal. Conversely, a vote in support of a well-principled proposal may be appropriate despite inferior format or ambiguity in language or provisions.

The Advisor's Chief Compliance Officer will identify any conflicts that exist between the interests of the Advisor and the Fund. This examination will include a review of the relationship of the firm with the issuer of each security to determine if the issuer is a client of the Advisor or has some other relationship with the Advisor or one of its clients. In such instances, the Advisor will submit a separate report to the Board indicating the nature of the potential conflict of interest and how the determination of such vote was achieved.

The Fund's proxy voting record for the twelve-month period ended June 30 of each year if applicable, will be available by August 31 of the same year (i) without charge, upon request, by calling (800) 497-2960 and (ii) on the SEC's website at www.sec.gov.

CONTROL PERSONS AND PRINCIPAL SHAREHOLDERS

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding shares of the Fund. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of the Fund or acknowledges the existence of control. A controlling person possesses the ability to control the outcome of matters submitted for shareholder vote by the Fund. As of the date of this SAI, there were no principal shareholders or control persons of the Retail Shares of the Fund, as that share class is not currently offered. As of April 1, 2021, the Fund had no control persons.

As of April 1, 2021, the following persons were principal shareholders of the Fund:

Institutional Shares

Name and Address	Parent Company	Jurisdiction	% Ownership	Type of Ownership
SEI PRIVATE TRUST COMPANY ATTN MUTUAL FUND ADMIN C/O CHOATE HALL & STEWART ID 747 ONE FREEDOM VALLEY DRIVE OAKS, PA 19456-9989	N/A	N/A	22.88%	Record
NATIONAL FINANCIAL SERVICES LLC 200 LIBERTY ST NEW YORK, NY 10281-1003	N/A	N/A	22.21%	Record
CHARLES SCHWAB & CO INC SPECIAL CUSTODY A/C FBO CUSTOMERS ATTN MUTUAL FUNDS 211 MAIN ST SAN FRANCISCO, CA 94105-1905	N/A	N/A	16.80%	Record
PERSHING LLC 1 PERSHING PLAZA, FLOOR 14 JERSEY CITY, NJ 07399	N/A	N/A	8.41%	Record
SAXON & CO PO BOX 94597 CLEVELAND, OH 44101	N/A	N/A	5.06%	Record

As of the date of this SAI, the Trustees and officers as a group owned beneficially (as the term is defined in section 13(d) under the Securities and Exchange Act of 1934, as amended) less than 1% of the outstanding shares of the Institutional Shares.

INVESTMENT ADVISORY AND OTHER SERVICES

Investment Adviser

The Advisor, located at One Letterman Drive, Building C, Suite 3600, San Francisco, CA 94129, is a California limited liability company. The Advisor is an SEC-registered investment adviser. Mr. James A. Robillard is considered to be a control person of the Advisor due to the percentage of his ownership of the firm. As of December 31, 2020, the Advisor had approximately \$3.31 billion in assets under management.

Pursuant to an investment advisory agreement between the Trust, on behalf of the Fund, and the Advisor (the "Advisory Agreement"), the Advisor manages the Fund. The Advisory Agreement continues in effect from year to year if such continuance is specifically approved at least annually by the Board, including a majority of the Independent Trustees, or by vote of a majority of the outstanding voting securities of the Fund. The Advisory Agreement may be terminated on 60 days' written notice without penalty: (i) by vote of the Board; (ii) by the vote of a majority of the outstanding voting securities of the Fund; or (iii) by the Advisor. The Advisory Agreement will also terminate automatically in the event of its assignment as defined in the 1940 Act.

Under the terms of the Advisory Agreement, the Advisor agrees to: (a) direct the investments of the Fund, subject to and in accordance with the Fund's investment objective, policies and limitations set forth in the Prospectus and this SAI; (b) purchase and sell for the Fund securities and other investments consistent with the Fund's objective and policies; (c) furnish office space and office facilities, equipment and personnel necessary for servicing the investments of the Fund; (d) pay the salaries of all personnel of the Advisor performing services relating to research, statistical and investment activities on behalf of the Fund; (e) make available and provide such information as the Trust and/or its administrator may reasonably request for use in the preparation of its registration statement, reports and other documents required by any applicable federal, foreign or state statutes or regulations; and (f) make its officers and employees available to the Board and officers of the Trust for consultation and discussion regarding the management of the Fund and its investment activities. Additionally, the Advisor agrees to maintain all books and records with respect to the Trust's securities transactions required by the 1940 Act and rules thereunder (other than those records being maintained by the Trust's administrator, custodian or transfer agent) and preserve such records for the periods prescribed therefor. The Trust and/or the Advisor may at any time or times, upon approval by the Board and the shareholders of the Fund, enter into one or more sub-advisory agreements with a sub-advisor pursuant to which the Advisor delegates any or all of its duties as listed.

The Advisory Agreement provides that the Advisor shall not be liable for any act or omission in the course of, or connected with, rendering services under the Advisory Agreement or for any losses that may be sustained in the purchase, holding or sale of any security or the making of any investment for or on behalf of the Fund, except to the extent of a loss resulting from willful misfeasance, bad faith, negligence, or reckless disregard on its part in the performance of its obligations and duties under the agreement.

Pursuant to the Advisory Agreement, the Advisor is entitled to receive an annual investment advisory fee, paid monthly, comprising 1.00% of the average daily net assets of the Fund. Pursuant to a contractual expense limitation agreement, the Advisor has agreed to waive a portion of its advisory fee and/or reimburse expenses to ensure the total amount of the Fund's operating expenses (excluding any front-end or contingent deferred loads, Rule 12b-1 plan fees, shareholder servicing plan fees, taxes, leverage (*i.e.*, any expenses incurred in connection with borrowings made by the Fund), interest (including interest incurred in connection with bank and custody overdrafts), brokerage commissions and other transactional expenses, expenses incurred in connection with any merger or reorganization, dividends or interest on short positions, acquired fund fees and expenses or extraordinary expenses such as litigation (collectively, "Excludable Expenses")) does not exceed 1.00% of the Fund's average annual net assets. To the extent the Fund incurs Excludable Expenses, Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement may exceed 1.00%. The Advisor may request recoupment of previously waived fees and paid expenses from the Fund for three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursement will not cause the Fund to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment. The Fund must pay its current ordinary operating expenses before the Advisor is entitled to any recoupment of management fees and/or expenses. This operating expense limitation agreement is in effect through at least April 30, 2022, and may be terminated only by, or with the consent of, the Board of Trustees.

For the fiscal period/years indicated below, the Fund paid the Advisor the following amounts of advisory fees pursuant to the Advisory Agreement:

Fiscal Period/Year Ended December 31	Gross Advisory Fees Earned	Advisory Fees Waived and Fund Expenses Reimbursed	Net Advisory Fees Paid to Advisor
2018	\$254,677	\$(197,172)	\$57,505
2019	\$1,506,377	\$(317,266)	\$1,189,111
2020	\$8,292,770	\$(732,905)	\$7,559,865

SERVICE PROVIDERS

Fund Administrator, Transfer Agent and Fund Accountant

Fund Services, located at 615 East Michigan Street, Milwaukee, Wisconsin 53202, acts as the Fund’s administrator pursuant to an administration agreement between Fund Services and the Trust. Fund Services provides certain administrative services to the Fund, including, among other responsibilities, coordinating the negotiation of contracts and fees with, and the monitoring of performance and billing of, the Fund’s independent contractors and agents; preparing for signature by an officer of the Trust all of the documents required to be filed for compliance by the Trust and the Fund with applicable laws and regulations excluding those of the securities laws of various states; arranging for the computation of performance data, including NAV and yield; responding to shareholder inquiries; and arranging for the maintenance of books and records of the Fund, and providing, at its own expense, office facilities, equipment and personnel necessary to carry out its duties. In this capacity, Fund Services does not have any responsibility or authority for the management of the Fund, the determination of investment policy, or for any matter pertaining to the distribution of Fund shares. As compensation for its services, Fund Services receives from the Fund a combined fee for fund administration and fund accounting services based on the Fund’s current average daily net assets. Fund Services is also entitled to be reimbursed for certain out-of-pocket expenses. Fund Services also acts as fund accountant (“Fund Accountant”), transfer agent (“Transfer Agent”) and dividend disbursing agent under separate agreements with the Trust.

For the fiscal period/years indicated below, as applicable, the Fund paid the following administrative and accounting fees to Fund Services for its services as the Fund’s administrator and Fund accountant.

Ended December 31,		
2020	2019	2018
\$399,407	\$124,377	\$61,569

Independent Registered Public Accounting Firm

BBD, LLP, located at 1835 Market Street, 3rd Floor, Philadelphia, Pennsylvania 19103, serves as the independent registered public accounting firm to the Trust providing services which include: (1) auditing the annual financial statements for the Fund; and (2) the review of the annual federal income tax returns filed on behalf of the Fund.

Legal Counsel

Godfrey & Kahn, S.C., 833 East Michigan Street, Suite 1800, Milwaukee, Wisconsin 53202, serves as counsel to the Trust and the Independent Trustees.

Custodian

U.S. Bank National Association (the “Custodian”), located at 1555 North River Center Drive, Suite 302, Milwaukee, Wisconsin, 53212, an affiliate of Fund Services, serves as the custodian of the Fund’s assets pursuant to a custody agreement between the Custodian and the Trust, on behalf of the Fund. The Custodian charges fees on a transactional basis plus out-of-pocket expenses. The Custodian maintains custody of securities and other assets of the Fund, delivers and receives payments for securities sold, receives and pays for securities purchased, and collects income from investments. The Custodian does not participate in decisions relating to the purchase and sale of securities by the Fund. The Custodian and its affiliates may participate in revenue sharing arrangements with service providers of mutual funds in which the Fund may invest.

Compliance Services

Vigilant Compliance, LLC (“Vigilant”) provides compliance services to the Fund pursuant to a service agreement between Vigilant and the Trust. Under this service agreement, Vigilant also provides an individual to serve as Chief Compliance Officer to the Trust, subject to the approval and oversight of the Board. The Board has approved Mr. Dausch as Chief Compliance Officer of the Trust.

DISTRIBUTION OF SHARES

ALPS Distributors Inc., (the “Distributor”), located at 1290 Broadway, Suite 1000, Denver, Colorado 80203, acts as the Fund’s distributor. Pursuant to an agreement between the Distributor and the Trust (the “Distribution Agreement”), the Distributor serves as the Fund’s principal underwriter, provides certain administration services, and promotes and arranges for the sale of the Fund’s shares. The offering of the Fund’s shares is continuous, and the Distributor distributes the Fund’s shares on a best efforts basis. The Distributor is a registered broker-dealer and member of FINRA.

The Distribution Agreement will continue in effect only if its continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund’s outstanding voting securities and, in either case, by a majority of the Independent Trustees. The Distribution Agreement is terminable without penalty by the Trust on behalf of the Fund on 60 days’ written notice when authorized either by a majority vote of the outstanding voting securities of the Fund or by vote of a majority of the Independent Trustees. The Distribution Agreement is terminable without penalty by the Distributor upon 60 days’ written notice to the Trust. The Distribution Agreement will automatically terminate in the event of its “assignment” (as defined in the 1940 Act).

Distribution and Shareholder Servicing (Rule 12b-1) Plan – Retail Shares (not currently offered)

The Fund has adopted a distribution and shareholder service plan pursuant to Rule 12b-1 under the 1940 Act (the “Rule 12b-1 Plan”) on behalf of the Retail Shares of the Fund.

Under the Rule 12b-1 Plan, the Retail Share Class of the Fund is authorized to pay a Rule 12b-1 distribution and/or shareholder servicing fee to the Distributor and other authorized recipients (the “Rule 12b-1 Fee”) for distribution and shareholder services on behalf of the Retail Shares of the Fund. The Rule 12b-1 Fee is an annual fee at the rate of 0.25% of the Fund’s average daily net assets attributable to Retail Shares. The Rule 12b-1 Plan provides that the

Distributor may use all or any portion of such Rule 12b-1 Fee to finance any activity that is principally intended to result in the sale of the Fund's Retail Shares, subject to the terms of the Rule 12b-1 Plan, or to provide certain shareholder services to Retail Shares.

The Rule 12b-1 Fee is payable to the Distributor regardless of the distribution-related expenses actually incurred on behalf of Retail Shares of the Fund. Because the Rule 12b-1 Fee is not directly tied to expenses, the amount of Rule 12b-1 Fees paid by the Retail Shares of the Fund during any year may be more or less than actual expenses incurred pursuant to the Rule 12b-1 Plan. For this reason, this type of distribution fee arrangement is characterized by the staff of the SEC as a "compensation" plan. The Distributor does not retain any Rule 12b-1 Fees for profit. All Rule 12b-1 Fees are held in retention for distribution-related expenses.

The Distributor may use the Rule 12b-1 Fee to pay for services covered by the Rule 12b-1 Plan including, but not limited to, advertising, compensating underwriters, dealers and selling personnel engaged in the distribution of Retail Shares of the Fund, the printing and mailing of prospectuses, statements of additional information and reports to other-than-current Fund shareholders, the printing and mailing of marketing material pertaining to the Fund, and administrative, shareholder services and other support services provided by financial intermediaries.

The Rule 12b-1 Plan provides that it continues from year to year upon approval by the majority vote of the Board, including a majority of the trustees who are not "interested persons" of the Fund, as defined in the 1940 Act, and who have no direct or indirect financial interest in the operations of the Rule 12b-1 Plan or in any agreement related to such plan (the "Qualified Trustees"), as required by the 1940 Act, cast in person at a meeting called for that purpose. The Rule 12b-1 Plan also requires that the Independent Trustees select and nominate all other trustees who are not "interested persons" of the Fund. The Rule 12b-1 Plan may not be amended to materially increase the amounts to be spent for distribution expenses without approval of shareholders holding a majority of the Fund's Retail Shares outstanding. All material amendments to the Rule 12b-1 Plan must be approved by a vote of a majority of the Board and the Qualified Trustees, cast in person at a meeting called for the purpose of voting on any such amendment.

The Rule 12b-1 Plan requires that the Distributor and/or the Trust's administrator provide to the Board, at least quarterly, a written report on the amounts and purpose of any payment made under the Rule 12b-1 Plan. The Distributor and administrator are also required to furnish the Board with such other information as may reasonably be requested in order to enable the Board to make an informed determination of whether the Rule 12b-1 Plan should be continued. The Board of Trustees, including a majority of Qualified Trustees, has concluded that there is a reasonable likelihood that the Rule 12b-1 Plan will benefit the Retail Shares of the Fund when that share class commences operations. In particular, the Board of Trustees has determined that it believes that the 12b-1 Plan, once implemented, is reasonably likely to stimulate sales of Retail Shares and assist in increasing the Fund's asset base. With the exception of the Advisor in its capacity as investment adviser to the Fund, no "interested person" of the Fund, as defined in the 1940 Act, and no Qualified Trustee of the Fund has or had a direct or indirect financial interest in the Rule 12b-1 Plan or any related agreement.

The Rule 12b-1 Plan provides for the ability to use Retail Shares' assets to pay financial intermediaries (including those that sponsor mutual fund supermarkets), plan administrators and

other service providers to finance any activity that is principally intended to result in the sale of Retail Shares (distribution services) or for the provision of certain shareholder services. The payments made by the Fund to these financial intermediaries are based primarily on the dollar amount of assets invested in the Retail Shares of the Fund through the financial intermediaries. These financial intermediaries may pay a portion of the payments that they receive from the Fund to its investment professionals. Under the Rule 12b-1 Plan, the Fund may, from time to time, make payments that help defray the expenses incurred by financial intermediaries for conducting training and educational meetings about various aspects of the Fund for their employees. In addition, the Fund may make payments under the Rule 12b-1 Plan for exhibition space and otherwise help defray the expenses these financial intermediaries incur in hosting client seminars where the Fund is discussed.

Because the Retail Share class has not yet commenced operations as of the date of this SAI, the Fund did not incur any Rule 12b-1 Fees for the fiscal year ended December 31, 2020.

Payments to Financial Intermediaries — Institutional Shares and Retail Shares

In addition to asset-based fees and other payments made under the Rule 12b-1 Plan, the Advisor makes payments to financial intermediaries for the distribution and shareholder services they provide to Fund shareholders from its own resources, which may include its profits from the advisory fee it receives from the Fund. In addition, the Fund may participate in various “fund supermarkets” in which a mutual fund supermarket sponsor (usually a broker-dealer) offers many mutual funds to the sponsor’s customers without charging the customers a sales charge. In connection with the Fund’s participation in such platforms, all or a portion of the Rule 12b-1 Fee may be used to pay one or more supermarket sponsors a negotiated fee for distributing and servicing the Fund’s Retail Shares. In addition, in its discretion, the Advisor may pay additional fees to intermediaries from its own assets for the distribution and servicing of shares of the Fund.

During the fiscal year ended December 31, 2020, the Fund did not engage in securities lending.

PORTFOLIO MANAGERS

Other Accounts Managed. The following table provides additional information about other accounts managed by the portfolio manager who is primarily responsible for the day-to-day management of the Fund, Mr. James Robillard, as of December 31, 2020.

Category of Account	Total Number of Accounts Managed	Total Assets in Accounts Managed (in millions)	Number of Accounts for which Advisory Fee is Based on Performance	Assets in Accounts for which Advisory Fee is Based on Performance (in millions)
Registered Investment Companies	1	\$2,123	0	\$0
Other Pooled Investment Vehicles	1	\$12	0	\$0
Other Accounts	93	\$1,174	1	\$5

Material Conflicts of Interest. Material conflicts of interest that may arise in connection with a portfolio manager's management of the Fund's investments and investments of other accounts managed include material conflicts between the investment strategy of the Fund and the investment strategy of the other accounts managed by the portfolio manager and conflicts associated with the allocation of investment opportunities between the Fund and other accounts managed by the portfolio manager.

The Advisor may provide advisory services to other clients which invest in securities of the same type that the Fund invests in (*i.e.*, fixed income securities, municipal obligations). The Advisor is aware of its obligation to ensure that when orders for the same securities are entered on behalf of the Fund and other accounts, that the Fund receives fair and equitable allocation of these orders, particularly where affiliated accounts may participate. The Advisor attempts to mitigate potential conflicts of interest by adopting policies and procedures regarding trade execution, brokerage allocation and order aggregation which provides a methodology for ensuring fair treatment for all clients in situations where orders cannot be completely filled or filled at different prices.

Compensation. The following is a description of the Advisor's portfolio manager compensation arrangements for the fiscal year ended December 31, 2020. The portfolio manager for the Fund is compensated by the Advisor in the form of a fixed salary. The portfolio manager is also eligible for a bonus, which is based on the overall profitability of the Advisor and is not based on performance of any accounts. The portfolio manager maintains an equity interest in the Advisor and may receive additional income proportionate to his equity in the Advisor. The portfolio manager also participates in the firm's retirement plan, which includes both an elective deferral and the required employer contribution per the plan administrator and trust document.

Ownership of Securities. As of December 31, 2020, the portfolio manager owned over \$1,000,000 worth of shares of the Fund.

BROKERAGE ALLOCATION AND OTHER PRACTICES

Equity securities are generally bought and sold in brokerage transactions place on U.S. stock exchanges or in over-the-counter markets in exchange for negotiated commissions. Accordingly, the cost of transactions may vary among different brokers.

The Advisor places all portfolio transactions on behalf of the Fund, selects broker-dealers for such transactions, allocates brokerage fees in such transactions and, where applicable, negotiates commissions and spreads on transactions. The Advisor has a fiduciary duty to the Fund to obtain best execution, on an overall basis, for any securities transactions. In selecting brokers and dealers, the Advisor seeks to obtain the overall best execution, taking into account a number of factors, including for example: price, clearance, settlement, reputation, financial strength and stability, efficiency of execution and error resolution, block trading and block positioning capabilities, special execution capabilities, willingness to execute related or unrelated difficult transactions in the future, order of call, online access to computerized data regarding clients' accounts, the availability of stocks to borrow for short trades, the competitiveness of commission rates in comparison to other brokers satisfying the Advisor's other selection criteria and other matters involved in the receipt of brokerage services.

During the fiscal period/years indicated below, the Fund paid aggregate brokerage commissions in the following amounts:

	<u>Commissions Paid</u>	<u>Total Value of Fund Transactions</u>
December 31, 2020*	\$897,542	\$1,481,490,236
December 31, 2019*	\$202,279	\$292,215,669
December 31, 2018	\$53,478	\$57,017,691

*The higher brokerage commissions paid during each of the fiscal years ended December 31, 2020 and December 31, 2019, as compared to the prior fiscal years is attributable primarily to an increase in the Fund's assets.

The Fund may at times invest in securities of its regular broker-dealers or the parent of its regular broker-dealers. The Fund did not hold any securities of its regular broker-dealers as of December 31, 2020.

The Fund pays "soft dollars" brokerage commissions through the Fund's trading activity in compliance with the "safe harbor" of Section 28(e) of the Securities Exchange Act of 1934, as amended. Under "soft dollar" arrangements, one or more of the brokerage firms provide or pay the costs of certain research services, or other items for the benefit of the Fund. In recognition of research services provided to it, the Fund may pay a higher brokerage commission to a broker than it may have been charged by another brokerage firm in executing the same transaction. These soft dollar arrangements may benefit the Fund and the Advisor by reducing expenses. Additionally, these research services may be used by the Advisor in servicing all of its accounts and not all of these research services may be used by the Advisor in connection with the Fund. Nonetheless, the Advisor believes that soft dollar arrangements generally enhance the Advisor's ability to obtain research, optimal execution and other benefits on behalf of the Fund.

During the fiscal year ended December 31, 2020, the Fund paid commissions related to soft dollars in the following amount:

<u>Commissions Paid to Brokers Who Supplied Research Services</u>	<u>Total Dollar Amount of Soft Dollar Transactions</u>
\$897,542	\$1,481,490,236

DESCRIPTION OF SHARES, VOTING RIGHTS AND LIABILITIES

The Fund has two classes of shares – Institutional Shares and Retail Shares. The shares of the Fund, when issued and paid for in accordance with the Prospectus, will be fully paid and non-assessable shares, with equal voting rights and no preferences as to conversion, exchange, dividends, redemption or any other feature.

Shares of the Fund entitle holders to one vote per share and fractional votes for fractional shares held. Shares have non-cumulative voting rights with respect to election of Trustees, do not have preemptive or subscription rights and are transferable. Each class takes separate votes on matters affecting only that class. For example, a change in the 12b-1 fee for a class would be voted upon only by shareholders of that class.

The Fund does not hold annual meetings of shareholders. A meeting of shareholders for the purpose of voting upon the question of removal of any Trustee may be called upon the demand of shareholders owning not less than 10% of the Trust's outstanding shares. Except when a

larger quorum is required by the applicable provisions of the 1940 Act, forty percent (40%) of the shares entitled to vote on a matter constitutes a quorum at a meeting of shareholders. Generally, subject to the 1940 Act and the specific provisions of the Amended and Restated Agreement and Declaration of Trust, as amended (the "Declaration of Trust"), when a quorum is present at any meeting, a majority of the shares voted will decide any questions, except only a plurality vote is necessary to elect Trustees.

The Fund may involuntarily redeem a shareholder's shares if the shareholder owns shares of the Fund having an aggregate NAV of less than a minimum value determined from time to time by the Trustees. In addition, the Trust may call for the redemption of shares of any shareholder or may refuse to transfer or issue shares to any person to the extent that the same is necessary to comply with applicable law or advisable to further the purpose for which the Trust was established, including circumstances involving frequent or excessive trading in shares of the Fund. The Declaration of Trust also provides that if an officer or agent of the Trust has determined that a shareholder has engaged in frequent and excessive trading in shares of the Fund, the Trust may require the shareholder to redeem his or her shares.

The Trust may cause, to the extent consistent with applicable law: (a) the Trust or one or more of its series to be merged into or consolidated with another trust, series of another trust or other person; (b) the shares of the Trust or any of its series to be converted into beneficial interests in another trust or series thereof; (c) the shares to be exchanged for assets or property under or pursuant to any state or federal statute to the extent permitted by law; or (d) a sale of assets of the Trust or one or more of its series. Such merger or consolidation, share conversion, share exchange or sale of assets must be authorized by a majority of the shares voted when a quorum is present, provided that in all respects not governed by statute or applicable law, the Trustees have power to prescribe the procedure necessary or appropriate to accomplish a merger or consolidation, share conversion, share exchange, or sale of assets, including the power to create one or more separate trusts to which all or any part of the assets, liabilities, profits or losses of the Trust may be transferred and to provide for the conversion of shares of the Trust or any of its series into beneficial interests in such separate business trust or trusts or series thereof.

Notwithstanding the foregoing paragraph, the Declaration of Trust provides that the Trustees may, without the vote or consent of shareholders, cause to be organized or assist in organizing a corporation or corporations under the laws of any jurisdiction, or any other trust, partnership, limited liability company, association or other organization, or any series or class of any thereof, to acquire all or a portion of the Trust property (or all or a portion of the Trust property held with respect to the Fund or allocable to a particular class) or to carry on any business in which the Trust directly or indirectly has any interest (any of the foregoing, a "Successor Entity"), and to sell, convey and transfer Trust property to any such Successor Entity in exchange for the shares or securities thereof or otherwise, and to lend money to, subscribe for the shares or securities of, and enter into any contracts with any such Successor Entity in which the Trust holds or is about to acquire shares or any other interest. The Trustees may also, without the vote or consent of shareholders, cause a merger or consolidation between the Trust and any Successor Entity if and to the extent permitted by law. However, the Declaration of Trust provides that the Trustees shall provide written notice to affected shareholders of each such transaction. Such transactions may be effected through share-for-share exchanges, transfers or sales of assets, in-kind redemptions and purchases, exchange offers, or any other method approved by the Trustees.

The Declaration of Trust provides that no shareholder shall have the right to bring or maintain any court action, proceeding or claim in the right of the Trust or the Fund or a class thereof to recover a judgment in its favor unless (a) shareholders holding at least ten percent (10%) of the outstanding shares of the Trust, the Fund or class, as applicable, join in the bringing of such court action, proceeding or claim; and (b) the bringing or maintenance of such court action, proceeding or claim is otherwise in accordance with Section 3816 of the Delaware Statutory Trust Act, subject to certain additional requirements.

The Declaration of Trust provides that by virtue of becoming a shareholder of the Fund, each shareholder will be held to have expressly assented and agreed to the terms of the Declaration of Trust, the By-Laws of the Trust and the resolutions of the Board.

The Declaration of Trust provides that the Trust will indemnify and hold harmless each Trustee and officer of the Trust and each former Trustee and officer of the Trust (each hereinafter referred to as a "Covered Person") from and against any and all claims, demands, costs, losses, expenses, and damages whatsoever arising out of or related to such Covered Person's performance of his or her duties as a Trustee or officer of the Trust or otherwise relating to any act, omission, or obligation of the Trust, if, as to liability to the Trust or its investors, it is finally adjudicated that the Covered Person was not liable by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the Covered Person's offices. In the case of settlement, such indemnification will be provided if it has been determined by a court or other body approving the settlement or other disposition, or by a reasonable determination, based upon a review of readily available facts (as opposed to a full trial type inquiry), by vote of a majority of Independent Trustees of the Trust, or in a written opinion of independent counsel, that such officers or Trustees have not engaged in willful misfeasance, bad faith, gross negligence or reckless disregard of their duties. Rights to indemnification or insurance cannot be limited retroactively.

The Declaration of Trust further provides that: (i) the appointment, designation or identification of a Trustee as chairperson of the Board or a member or chairperson of a committee of the Trustees, an expert on any topic or in any area (including an audit committee financial expert), or the lead Independent Trustee, or any other special appointment, designation or identification of a Trustee, shall not impose on that individual any duty, obligation or liability that is greater than the duties, obligations and liability imposed on that person as a Trustee in the absence of the appointment, designation or identification (except with respect to duties expressly imposed pursuant to the By-Laws of the Trust, a committee charter or a Trust policy statement); (ii) no Trustee who has special skills or expertise, or is appointed, designated or identified shall be held to a higher standard of care by virtue thereof; and (iii) no appointment, designation or identification of a Trustee shall affect in any way that Trustee's rights or entitlement to indemnification.

PURCHASE, REDEMPTION AND PRICING OF SHARES

Purchase of Shares. Information regarding the purchase of shares is discussed in the “Purchase of Shares” section of the Prospectus.

There may be special distribution requirements for a retirement account, such as required distributions or mandatory federal income tax withholding. For more information, call 1-888-878-5680. You may be charged a \$15 annual account maintenance fee for each retirement account, up to a maximum of \$30 annually, and a \$25 fee for transferring assets to another custodian or for closing a retirement account.

Redemption of Shares. Information regarding how to redeem shares of the Fund is discussed in the “Redemption of Shares” section of the Prospectus.

You may sell (redeem) your shares on any Business Day. Redemptions are effected at the NAV next determined after the Transfer Agent has received your redemption request. It is the responsibility of the financial intermediary to transmit redemption orders and credit their customers' accounts with redemption proceeds on a timely basis. The Fund's name, your account number, the number of shares or dollar amount you would like redeemed and the signatures by all of the shareholders whose names appear on the account registration should accompany any redemption requests. The Transfer Agent will normally mail or send your redemption proceeds to the bank you indicated on the next Business Day following receipt by the Transfer Agent of redemption instructions, but never later than 7 days following such receipt. Wires are subject to a \$15 fee paid by you, but you do not incur any charge when proceeds are sent via the ACH system. If you purchased your shares through a financial intermediary you should contact the financial intermediary for information relating to redemptions.

If shares to be redeemed represent a recent investment made by check or ACH transfer, the Fund reserves the right not to make the redemption proceeds available until they have reasonable grounds to believe that the check or ACH transfer has been collected (which could take up to 10 days). Shareholders can avoid this delay by utilizing the wire purchase option. To ensure proper authorization before redeeming Fund shares, the Transfer Agent may require additional documents such as, but not restricted to, stock powers, trust instruments, death certificates, appointments as fiduciary, certificates of corporate authority and waivers of tax required in some states when settling estates.

When shares are held in the name of a corporation, other organization, trust, fiduciary or other institutional investor, the Transfer Agent requires, in addition to the stock power, certified evidence of authority to sign the necessary instruments of transfer. These procedures are for the protection of shareholders and should be followed to ensure prompt payment. Redemption requests must not be conditional as to date or price of the redemption. Proceeds of the redemption will be sent within seven days of acceptance of shares tendered for redemption. Delay may result if the purchase check or electronic funds transfer has not yet cleared, but the delay will be no longer than required to verify that the purchase amount has cleared, and the Fund will act as quickly as possible to minimize delay.

The value of shares redeemed may be more or less than the shareholder's cost, depending on the NAV at the time of redemption. Redemption of shares may result in tax consequences (gain or loss) to the shareholder, and the proceeds of a redemption may be subject to backup withholding.

A shareholder's right to redeem shares and to receive payment therefore may be suspended when: (a) the New York Stock Exchange ("NYSE") is closed other than customary weekend and holiday closings; (b) trading on the NYSE is restricted; (c) an emergency exists as a result of which it is not reasonably practicable to dispose of the Fund's securities or to determine the value of the Fund's net assets; or (d) ordered by a governmental body having jurisdiction over the Fund for the protection of the Fund's shareholders, provided that applicable rules and regulations of the SEC (or any succeeding governmental authority) shall govern as to whether a condition described in (b), (c) or (d) exists. In case of such suspension, shareholders may withdraw their requests for redemption or may receive payment based on the NAV of the Fund next determined after the suspension is lifted.

The Fund reserves the right, if conditions exist which make cash payments undesirable, to honor any request for redemption by making payment in whole or in part with readily marketable securities (redemption "in-kind") chosen by the Fund and valued in the same way as they would be valued for purposes of computing the NAV of the Fund. If payment is made in securities, a shareholder may incur transaction expenses in converting these securities into cash. The Fund has elected, however, to be governed by Rule 18f-1 under the 1940 Act, as a result of which the Fund is obligated to redeem shares solely in cash up to the lesser of \$250,000 or 1% of the net assets of the Fund for any one shareholder during any 90-day period. This election is irrevocable unless the SEC permits its withdrawal.

Pricing of Shares. The price of the Fund's shares is based on its NAV. The Transfer Agent determines the NAV per share of the Fund as of the close of regular trading on the NYSE (normally 4:00 p.m., Eastern Time) on each day that the NYSE is open for business (each, a "Business Day"). The NAV is calculated by adding the value of all securities and other assets in the Fund, deducting its liabilities, and dividing the balance by the number of outstanding shares in the Fund. The price at which a purchase or redemption is effected is based on the next calculation of NAV after the order is received by an authorized financial institution or the Transfer Agent and under no circumstances will any order be accepted for purchase or redemption after the NAV calculation. Shares will only be priced on Business Days. In addition, foreign securities held by the Fund may trade on weekends or other days when the Fund does not calculate NAV. As a result, the market value of these investments may change on days when shares of the Fund cannot be bought or sold.

The Fund values its assets based on current market values when such values are available. These prices normally are supplied by an independent pricing service. Equity securities held by the Fund which are listed on a national securities exchange, except those traded on the NASDAQ Stock Market, Inc. ("NASDAQ"), and for which market quotations are available are valued at the last quoted sale price of the day, or, if there is no such reported sale, securities are valued at the mean between the most recent quoted bid and ask prices. Securities traded on NASDAQ are valued in accordance with the NASDAQ Official Closing Price, which may not be the last sale price. In the event such market quotations are not readily available, fair value will be determined using procedures adopted by the Board.

Debt securities, including short-term debt instruments having a maturity of less than 60 days, are valued at the evaluated mean price supplied by an approved pricing service. Pricing services may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. In the absence of prices from a pricing service, the securities will be priced in accordance with the procedures adopted by the Board.

The Board has delegated the day-to-day functions of determining the value of securities not otherwise valued by a pricing service to the Trust's Valuation Committee.

DISTRIBUTIONS

Distributions, if any, from the Fund's investment company taxable income and net capital gain (the excess of net long-term capital gain over the net short-term capital loss) realized by the Fund, after deducting any available capital loss carryovers, are declared and paid to its shareholders at least annually, as described in the Prospectus.

TAXATION OF THE FUND

General. The following summarizes certain additional U.S. federal income tax considerations generally affecting the Fund and its shareholders that are not described in the Prospectus. No attempt is made to present a detailed explanation of the tax treatment of the Fund or its shareholders, and the discussions here and in the Prospectus are not intended as a substitute for careful tax planning. Changes in income tax laws, potentially with retroactive effect, could impact the Fund's investments or the tax consequences to you of investing in the Fund. There may be other federal, state, foreign or local tax considerations applicable to a particular investor. Potential investors should consult their tax advisers with specific reference to their own tax situations.

The discussions of the federal tax consequences in the Prospectus and this SAI are based on the Internal Revenue Code of 1986, as amended (the "Code"), and the regulations issued under it, and court decisions and administrative interpretations as in effect on the date of this SAI. Future legislative or administrative changes or court decisions may significantly change the taxation of the Fund's investments or the tax consequences to investors as described in the Prospectus and SAI, and any such changes or decisions may be retroactive.

The Fund qualified during its last taxable year, and intends to continue to qualify as a regulated investment company under Subchapter M of Subtitle A, Chapter 1, of the Code. As a regulated investment company, the Fund generally is exempt from federal income tax on its investment company taxable income and net capital gain that it distributes to shareholders. To qualify for treatment as a regulated investment company, the Fund must meet three important tests each year.

First, in each taxable year, the Fund must derive at least 90% of its gross income from dividends, interest, certain payments with respect to securities loans, gains from the sale or other disposition of stock or securities or foreign currencies, other income derived with respect to its business of investing in such stock, securities, or currencies, or net income derived from interests in qualified publicly-traded partnerships.

Second, generally, at the close of each quarter of the Fund's taxable year, at least 50% of the value of the Fund's assets must consist of cash and cash items, U.S. Government securities, securities of other regulated investment companies and securities of other issuers with such other securities limited, in respect to any one issuer, to an amount not greater in value than 5% of the value of the Fund's total assets and to not more than 10% of the outstanding voting securities of such issuer; and no more than 25% of the value of the Fund's total assets may be invested in the securities of (1) any one issuer (other than U.S. Government securities and securities of other regulated investment companies); (2) two or more issuers that the Fund controls and which are engaged in the same, similar, or related trades or businesses; or (3) one or more qualified publicly-traded partnerships.

Third, the Fund must distribute an amount equal to at least the sum of 90% of the Fund's investment company taxable income (net investment income and the excess of net short-term capital gain over net long-term capital loss) and 90% of its net tax-exempt interest income, if any, for the year.

The Fund intends to comply with these requirements. However, there can be no assurance that the Fund will satisfy all requirements to be taxed as a regulated investment company. If the Fund were to fail to make sufficient distributions, it could be liable for corporate income tax and for excise tax in respect of the shortfall or, if the shortfall is large enough, the Fund could be disqualified as a regulated investment company. If for any taxable year the Fund were not to qualify as a regulated investment company, all of its taxable income would be subject to federal income tax at regular corporate rates without any deduction for distributions to shareholders. In that event, shareholders would recognize dividend income on distributions to the extent of the Fund's then-current and accumulated earnings and profits, and certain corporate shareholders could be eligible for the dividends-received deduction.

The Code imposes a nondeductible 4% excise tax on regulated investment companies that fail to distribute each year an amount equal to specified percentages of their ordinary taxable income and capital gain net income (excess of capital gains over capital losses). The Fund intends to make sufficient distributions or deemed distributions each year to avoid liability for this excise tax.

Under the Foreign Account Tax Compliance Act ("FATCA"), the Fund may be required to withhold a generally nonrefundable 30% tax on (i) distributions of investment company taxable income and (ii) distributions of net capital gain and the gross proceeds of a sale or redemption of Fund shares paid to (A) certain "foreign financial institutions" unless such foreign financial institution agrees to verify, monitor, and report to the Internal Revenue Services ("IRS") the identity of certain of its account holders, among other items (or unless such entity is otherwise deemed compliant under the terms of an intergovernmental agreement between the United States and the entity's country of residence), and (B) certain "non-financial foreign entities" unless such entity certifies to the Fund that it does not have any substantial U.S. owners or provides the name, address, and taxpayer identification number of each substantial U.S. owner, among other items. In December 2018, the IRS and Treasury Department released proposed Treasury Regulations that would eliminate FATCA withholding on Fund distributions of net capital gain and the gross proceeds from a sale or redemption of Fund shares. Although taxpayers are entitled to rely on these proposed Treasury Regulations until final Treasury Regulations are issued, these proposed Treasury Regulations have not been finalized, may not

be finalized in their proposed form, and are potentially subject to change. This FATCA withholding tax could also affect the Fund's return on its investments in foreign securities or affect a shareholder's return if the shareholder holds its Fund shares through a foreign intermediary. You are urged to consult your tax adviser regarding the application of this FATCA withholding tax to your investment in the Fund and the potential certification, compliance, due diligence, reporting, and withholding obligations to which you may become subject in order to avoid this withholding tax.

Foreign taxpayers are generally subject to withholding tax at a flat rate of 30% on U.S.-source income that is not effectively connected with the conduct of a trade or business in the U.S. This withholding rate may be lower under the terms of a tax convention.

Except in the case of certain exempt shareholders, if a shareholder does not furnish the Fund with the shareholder's correct Social Security Number or other taxpayer identification number and certain certifications or the Fund receives notification from the IRS requiring backup withholding, the Fund is required by federal law to withhold federal income tax from the shareholder's distributions and redemption proceeds at a rate set under Section 3406 of the Code for U.S. residents.

A sale or redemption of Fund shares, whether for cash or in-kind proceeds, may result in recognition of a taxable capital gain or loss. Gain or loss realized upon a sale or redemption of Fund shares will generally be treated as a long-term capital gain or loss if the shares have been held for more than one year, and, if held for one year or less, as a short-term capital gain or loss. However, any loss realized upon a sale or redemption of shares held for six months or less will be treated as a long-term capital loss to the extent of any distributions of net capital gain received or deemed to be received with respect to such shares. In determining the holding period of such shares for this purpose, any period during which the shareholder's risk of loss is offset by means of options, short sales, or similar transactions is not counted. Any loss realized upon a sale or redemption of Fund shares may be disallowed under certain wash sale rules to the extent shares of the Fund are purchased (through reinvestment of distributions or otherwise) within 30 days before or after the sale or redemption. If a shareholder's loss is disallowed under the wash sale rules, the basis of the new shares will be increased to preserve the loss until a future sale or redemption of the shares.

Capital Loss Carryforwards. As of December 31, 2020, the Fund's most recent fiscal year, the Fund had no short-term or long-term tax basis capital losses to offset future capital gains. Capital loss carryforwards can be carried forward indefinitely and will retain their character as short-term or long-term capital losses.

State and Local Taxes. Although the Fund expects to qualify as a regulated investment company and to be relieved of all or substantially all federal income taxes, depending upon the extent of its activities in states and localities in which its offices are maintained, in which its agents or independent contractors are located or in which it is otherwise deemed to be conducting business, the Fund may be subject to the tax laws of such states or localities.

Taxation of Certain Investments. The tax principles applicable to transactions in certain financial instruments such as futures contracts and options that may be engaged in by the Fund, and investments in passive foreign investment companies ("PFICs"), are complex and, in some cases, uncertain. Such transactions and investments may cause the Fund to recognize taxable

income prior to the receipt of cash, thereby requiring the Fund to liquidate other positions, or to borrow money, so as to make sufficient distributions to shareholders to avoid corporate-level tax. Moreover, some or all of the taxable income recognized may be ordinary income or short-term capital gain, so that the distributions may be taxable to shareholders as ordinary income.

In addition, in the case of any shares of a PFIC in which the Fund invests, the Fund may be liable for corporate-level tax on any ultimate gain or distributions on the shares if the Fund fails to make an election to recognize income annually during the period of its ownership of the shares.

Interest and dividends received by the Fund from foreign sources may be subject to income, withholding or other taxes imposed by foreign countries and U.S. possessions that would reduce the yield on Fund securities. Tax conventions between certain countries and the United States may reduce or eliminate these foreign taxes, however, and many foreign countries do not impose taxes on capital gains realized on investments held by foreign investors. If more than 50% of the value of the Fund's total assets at the close of its taxable year consists of stock and securities of foreign corporations, it will be eligible to, and may, file an election with the IRS that would, in effect, pass through to the shareholders any foreign and U.S. possessions income taxes paid by the Fund. Pursuant to the election, the Fund would treat those taxes as distributions paid to its shareholders and each shareholder would be required to (i) include in gross income, and treat as paid by the shareholder, his or her proportionate share of those taxes paid by the Fund, (ii) treat his or her share of those taxes and of any distribution paid by the Fund that represents income sourced from foreign countries or U.S. possessions as his own income from those sources, and (iii) either deduct the taxes deemed paid by the shareholder in computing his or her taxable income or, alternatively, use the foregoing information in calculating the foreign tax credit against his or her federal income tax. If the Fund makes this election, it will report to its shareholders shortly after each taxable year their respective share of income from sources within, and taxes paid to, foreign countries and U.S. possessions.

The Fund maintains its accounts and calculates its income in U.S. dollars. In general, gain or loss (i) from the disposition of foreign currencies and forward currency contracts, (ii) from the disposition of foreign-currency-denominated debt securities that are attributable to fluctuations in exchange rates between the date the securities are acquired and their disposition date, and (iii) attributable to fluctuations in exchange rates between the time the Fund accrues interest or other receivables or expenses or other liabilities denominated in a foreign currency and the time the Fund actually collects those receivables or pays those liabilities, will be treated as ordinary income or loss.

The Fund is required to report to certain shareholders and the IRS the cost basis of shares acquired by such shareholders on or after January 1, 2012 ("covered shares") when such shareholders sell or redeem such shares. These requirements do not apply to shares held through a tax-deferred arrangement, such as a 401(k) plan or an IRA, or to shares held by tax-exempt organizations, financial institutions, corporations (other than S corporations), banks, credit unions, and certain other entities and governmental bodies. Shares acquired before January 1, 2012 ("non-covered shares") are treated as if held in a separate account from covered shares. The Fund is not required to determine or report a shareholder's cost basis in non-covered shares and is not responsible for the accuracy or reliability of any information provided for non-covered shares.

The cost basis of a share is generally its purchase price adjusted for distributions, returns of capital, and other corporate actions. Cost basis is used to determine whether the sale or redemption of a share results in a gain or loss. If you sell or redeem covered shares during any year, then the Fund will report the gain/loss, cost basis, and holding period of such shares to the IRS and you on Form 1099.

A cost basis method is the method by which a Fund determines which specific covered shares are deemed to be sold or redeemed when a shareholder sells or redeems less than its entire holding of Fund shares and has made multiple purchases of Fund shares on different dates at differing net asset values. If a shareholder does not affirmatively elect a cost basis method, the Fund will use the average cost method, which averages the basis of all Fund shares in an account regardless of holding period, and shares sold or redeemed are deemed to be those with the longest holding period first. Each shareholder may elect in writing (and not over the telephone) any alternate IRS-approved cost basis method to calculate the cost basis in its covered shares. The default cost basis method applied by the Fund or the alternate method elected by a shareholder may not be changed after the settlement date of a sale or redemption of Fund shares.

If you hold Fund shares through a financial intermediary (or another nominee), please contact that broker or nominee with respect to the reporting of cost basis and available elections for your account.

You are encouraged to consult your tax adviser regarding the application of these cost basis reporting rules and, in particular, which cost basis calculation method you should elect.

FINANCIAL STATEMENTS

The financial statements of the Fund and the Fund's independent registered public accounting firm's report appearing in the Fund's [Annual Report](#) for the fiscal year ended December 31, 2020 are hereby incorporated by reference.

APPENDIX A – VOTING GUIDELINES

Spyglass Capital Management LLC Proxy Voting Guidelines

- 1) Eliminate preemptive rights: *Generally in favor*. Preemptive rights may result in a loss of financing flexibility and could prevent management from raising capital advantageously. There is potential for abuse if new equity securities are issued at a discount to the market price of existing securities. This may result in a transfer of value from existing to new shareholders. However, instances of abuse are unusual and these are expenses involved in issuing securities on a preemptive basis.
- 2) Indemnification of directors, i.e., limiting or eliminating liability for monetary damages for violating the duty of care: *Generally in favor*. Indemnification is generally necessary to attract qualified Board nominees in a litigious corporate environment. Monetary liability generally is not eliminated or limited for any breach of duty of loyalty, acts or omissions not in good faith, and any transactions in which the director derived an improper personal benefit.
- 3) Cumulative voting: *Generally opposed*. Cumulative voting may prevent the majority of shareholders from electing a majority of the Board. Cumulative voting requires fewer votes to obtain a Board seat. Therefore it promotes single interest representation on the Board, which may not represent the interest or concerns of all shareholders.
- 4) Executive stock option plans: *Generally opposed if exercise price is below market price or if dilution under the plan would be greater than 10%, particularly if the company is mature or executive compensation is excessive*. For rapidly growing, cash-short issuers where executive salaries are reasonable may approve a plan where dilution exceeds 10%.
- 5) Shareholder action by written consent: *Generally opposed to proposals to restrict or prohibit shareholders' ability to take action by written consent*. Shareholders may lose the ability to remove directors or initiate a shareholder resolution if they have to wait for the next scheduled meeting.
- 6) Shareholder right to call a special meeting: *Generally opposed to proposals to eliminate the right of shareholders to call a special meeting or to require the petition of more than 25% of shareholders to call a special meeting*. Shareholders may lose the right to remove directors or initiate a shareholder resolution if they cannot take action until the next regularly scheduled meeting. This is especially troublesome if shareholders do not have the right to act by written consent.
- 7) Super-majority vote requirements: *Generally opposed to proposals requiring that a vote of more than two-thirds be required to amend any bylaw or charter provision, or approve a merger or other business combination*. Super-majority vote provisions may stifle bidder interest in the issuer and thereby devalue its stock.
- 8) Anti-greenmail provision: *Generally opposed*. Favor equal treatment for all shareholders, but anti-greenmail provisions may severely limit management's flexibility, for example, with respect to share repurchase programs or ability to issue shares such as General Motor's Class E and H with special features.

- 9) Approval of Poison Pills: *Generally in favor*. However, Spyglass would generally be opposed when poison pills are utilized to prevent takeover bids that would be in the best interest of shareholders or when accompanied by super-majority requirements or inequitable voting provisions. Certain shareholder rights plans, however, protect the interest of shareholders by enabling the Board to respond in a considered manner to unsolicited bids.
- 10) Blank-check preferred stock: *Generally opposed*. Does provide in financing but also can be used as an entrenchment device. Can be used as a poison pill when distributed to stockholders with rights attached or can be issued with superior voting rights to friendly parties.
- 11) Classified/Staggered Boards of Directors – Greater-Than-Annual Election of Directors: *Generally opposed*. Classified Boards do provide stability and continuity; but, if someone wins proxy fights and replaces a third of the directors, because of the difficulties involved in running the issuer with a Board of Directors that is a third hostile and because the vote would be seen as a loss of confidence in management, the remaining directors might put the issuer up for sale or accommodate the wishes of the dissident group. A staggered Board could mean that a director who failed to attend meetings or who voted in favor of actions that were harmful to shareholders could not be removed for up to three years.
- 12) Majority vote election of directors: *Generally in favor*. Permits removal of nonperforming, unpopular or ineffective directors.
- 13) Recapitalization Plan - Eliminate inequitable voting rights: *Generally in favor*. Fair voting provisions are critical elements of shareholder ownership. One share = One vote structure promotes Management and Board accountability.
- 14) Establish term limits for directors: *Generally opposed*. Experience and continuity in Board representation fosters acute and prudent oversight of Management.
- 15) Increase required number/percentage of independent and/or industry-experienced Board members: *Generally in favor*. Spyglass favors independent Compensation Committees and industry-experienced Board members to promote prudent management and effective Board oversight. Spyglass generally opposes arbitrary restrictions, percentages or minimum independent representation that may be impractical or potentially remove effective Board members. Anti-Trust statutes may inhibit recruitment of qualified, industry-experienced Board members. Comprehensive Board orientations can provide the requisite exposure to the business model.
- 16) Separation of Board Chairman and CEO Roles: *Generally in favor*. Separation of the primary Management (CEO) and Oversight (Board Chairman) roles promotes accountability and objective evaluation of performance.
- 17) Increase Director / Senior Management Liability: *Generally opposed*. Management or Board liability in excess of legal or statutory requirements would disadvantage the company in attracting and retaining talented and qualified persons. Sarbanes-Oxley imposes mandatory penalties against the CEO and CFO pursuant to misstatements and omissions of material facts.

18) Confidential voting: *Generally in favor*. Confidential voting eliminates the opportunity for management to apply pressure to Institutional shareholders with which a business relationship exists. It should be noted that the Department of Labor's "Avon Letter" and the Department of Labor's investigation of proxy voting violations in 1988 might have lessened the need for confidential voting.

19) Fair price provisions: *No general policy*. Generally opposed when accompanied by super-majority provision, i.e., a clause requiring a super majority shareholder vote to alter or repeal the fair price provision, in excess of two-thirds. Also generally opposed if the pricing formula is such that the price required is unreasonably high. Generally in favor if provisions are designed to prevent two-tier, front-end-loaded hostile tender offer; where no shareholder wants to get caught in the second tier, so that effectively all shareholders are coerced into accepting the offer.

20) Management / Board Compensation: *Generally opposed to excessive, unearned or unwarranted leadership compensation*. Generally in favor of establishing reasonable or standardized compensation practices. Generally in favor of compensation reflecting or contingent on achievement of challenging performance objectives. Generally in favor of guidelines reflecting compensation in comparable leadership roles and/or compensation to internal non-managerial employees. Generally in favor of compensation in the form of restricted stock and above market options that vest with performance and/or tenure. It would be difficult for an issuer to attract, retain and motivate top managers without competitive compensation packages. Shareholder approval is appropriate to deviate from guidelines.

21) Golden parachutes: *Generally opposed to excessive, unearned or unwarranted leadership severance*. *Generally in favor of establishing reasonable or standardized annual compensation and performance*. It would be difficult for an issuer considered likely to be taken over to attract and retain top managers without severance packages for involuntary termination or significant reduction in compensation, duties or relocation after a change in control. Shareholder approval is appropriate to deviate from guidelines.

22) Reincorporation: *Generally in favor of reincorporation within the United States to potentially exploit favorable regulatory or tax treatment or environmental conditions*. Generally opposed to reincorporation outside of the United States. Should examine whether change of state of incorporation would increase the capacity of management to resist hostile takeovers.

23) "Say on Pay": *Generally in favor of Say on Pay, Say on Frequency and Say on Golden Parachute issues*. In support of annual advisory shareholder votes and in support of management compensation not deemed excessive.

The following proposals are *generally approved*:

- 1) Election of management's nominees for Directors;
- 2) Appointment of Auditors;
- 3) Change in the date or location of annual meetings;
- 4) For investment companies, continuation of company management, investment advisers or distribution contracts;
- 5) Transaction of such other business as may properly come before the meeting;
- 6) Receiving and/or approving financial reports;

- 7) Indemnification of Directors;
- 8) Change of control provisions;
- 9) Stock splits and stock dividends;
- 10) Equity & Incentive Plans (Including, but not limited to: Stock Incentive Plans, Restricted Stock Plans, Management Stock Ownership Plans, Senior Executive Incentive Plans, Employee Stock Purchase Plans, Long-Term Incentive Plans, Performance Incentive Plans, Non-Employee Directors Stock Compensation Plans, Share Purchase & Option Plans);
- 11) Authority to issue additional debt;
- 12) Change in the number of authorized common shares;
- 13) Corporate name change;
- 14) Change in investment company agreements with advisers;
- 15) Stock option plans, unless exercise price is less than the market price at the time of the grant or excessive dilution would occur under the plan;
- 16) Removal of a Director only for cause;
- 17) Recoup unearned management bonuses;
- 18) Waiver of preemptive rights;
- 19) Fair pricing amendments unless accompanied by a super-majority provision in excess of two-thirds;
- 20) Equal access proposals;
- 21) Technical amendments to by-laws or charters;
- 22) Share repurchases; and
- 23) Spin-offs.

The following proposals are generally opposed:

- 1) Creation of a second class of stock with unequal voting rights;
- 2) Fair pricing provisions when accompanied by a super-majority provision in excess of two-thirds;
- 3) Amendment to bylaws by Board of Directors without shareholder approval;
- 4) Elimination of shareholder right to call a special meeting or requiring more than 25 % of shareholders to call a special meeting;
- 5) Elimination of shareholder action by written consent;
- 6) "Stakeholder" proposals;
- 7) Loans or guarantees of loans to Officers and Directors;
- 8) Super-majority provisions in excess of two-thirds;
- 9) A greater vote requirement to repeal a provision than to adopt it; and
- 10) Permit cumulative voting.

When the Committee decides to vote against a proposal that is generally approved or to vote in favor of a proposal that is generally opposed, the reason for the exception will be recorded.

There is no general policy with respect to mergers or other combinations, such proposals will be evaluated on a case-by-case basis.
